APPLICANTS INTERVIEW SUMMARY

Dear Sir:

Applicant provides herewith the following Interview Summary to be made of record in the above-identified case.

Examiner Mercier and contacted Appellants' representative, Gary Baker, by phone on December 2, 2009. The Examiner suggested that claim 1 would be allowable if it incorporated the limitations of claim 67. Appellants' representative agreed to present the proposal to Appellants.

On December 4, Appellants' representative called Examiner Mercier requesting an expanded range of cross-linking temperature based on disclosures in the original specification. On review with SPE Woodward, there was agreement that a 80C to 125C cross-linking temperature should be allowable in claim 1.
